

Easy Touch

Coded keyboard / Badgereader

Functions

The Easy Touch is a simple and effective solutions for access control. Thanks to the small size, it can be integrated on your equipment easily.

It can be used in 2 different ways:

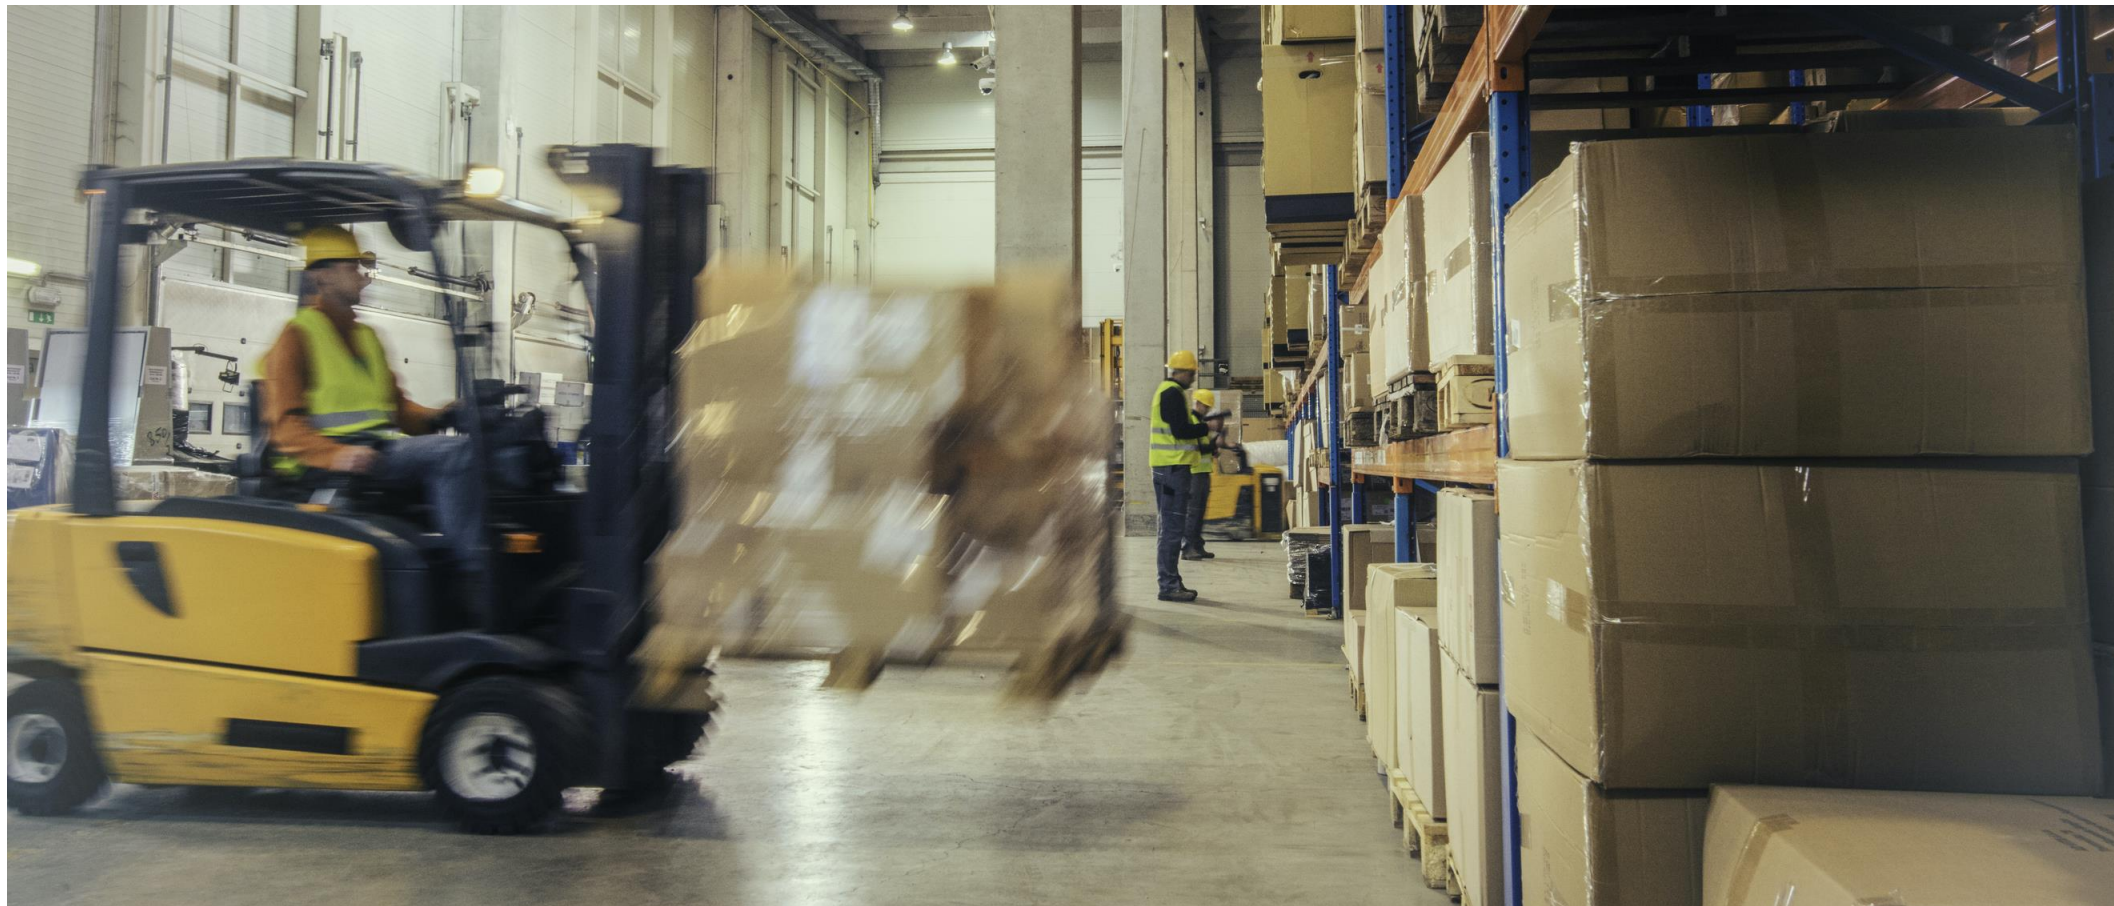

- The allocation of a personal code for every user giving access to one or more machines (within the limit of 2.000 users per device)
- The allocation of a personal badge for every user giving access to one or more machines.

The Easy Touch does not demand a computer tool and has several advantages such as:

Registration of codes / personal badges of authorised users

Deleting of older personal user codes

Thanks to its robust design and the integrated heating in the box, the box can work in all sorts of industrial surroundings (including cold storage).

Advantages

- **Waterproof, IP68-compatible**
- **Solid zinc vandal-proof housing**
- **Full programming from the keyboard**
- **2.000 user codes**
- **Can be used as an independent keyboard**
- **Backlit keys**
- **Very low power consumption (30mA)**
- **High running speed, <20ms with 2000 users**
- **easy to install and program**
- **Integrated buzzer**
- **LED's indicate the operating status**

Technische gegevens

Power	12V
User capacity	2000
Reading distance of badge	3-6 cm
Usage	25 - 60mA
Temperature (usage)	-45°C – 60°C
Seal	Conform met IP68
Weight en dimensions	177mm x 76mm x 25mm – 600g
